

Food Innovation: Emerging Science, Technologies and Applications | FIESTA 2008

4th Innovative Foods Centre Conference

17 – 18 September 2008, Brisbane, Australia

The biennial Innovative Foods Centre conference is the most recognized event in emerging technologies in the Southern Hemisphere. The next conference, the 4th in the series, emphasizes the science, applications and benefits of emerging technologies with a focus on creating market opportunities for a range of value-added food products.

Recognising and Realising Markets through Novel Technologies!

Opportunities for novel products and advanced processing utilizing emerging technologies will be presented through sessions and overarching themes based within food categories including:

- beverages
- cereals
- confectionery
- fruit and vegetables
- dairy
- meat
- seafood
- snack foods

The conference program is well into development and will be regularly updated on the conference website; www.innovativefoods2008.com

Competitive Travel Grants and Prizes for Poster Presenters

The FIESTA 2008 organising committee is pleased to announce the release of six competitive travel grants for poster presenters to attend the 4th Innovative Foods Centre Conference. Travel grants of **AU\$1,000** will be awarded to three international and **AU\$500** to three Australia/New Zealand presenters as selected on merit. For further information and application visit the conference website.

The Call for Abstracts is open until 15th May 2008 for posters. Posters will be selected for short oral presentations. Authors are encouraged to prepare papers for publication in a special issue of the "Innovative Food Science and Emerging Technologies" journal.

Three prizes of AU\$1,000, AU\$500 and AU\$250 will be awarded for 'Outstanding Posters' at the conference.
